The HELIX Project has arranged for International Community Development Consultant Denys Candy to speak from the main stage at 11.00am. Born and raised in Ireland, Denys moved to the US in 1976. A community development consultant (and songwriter), he designs and facilitates high engagement collaboration, often using the arts to generate broader involvement and action in community plans. Founder of Community Partners Institute, he works with school districts, universities, foundations and community partnerships to address social and health issues in the US, UK and Ireland. (www.communitypartner.org) He designed and continues to co-direct the multi-organizational partnership *Find the Rivers!* (www.findtherivers.net) This comprehensive initiative to influence health and economic development (by reconnecting Pittsburgh's historic Hill District to the city's three rivers) is now in progress, and inspired the Communities Along the Carron project. Denys will facilitate the **"Helix is Happening - Right Here and Now in Abbotshaugh"** event 4th-7th October. See www.thehelix.co.uk.
